

Aqaba Oil Terminal Rehabilitation Project Tender Announcement

Aqaba Development Corporation (ADC) is the main development corporation for the Aqaba Special Economic Zone (ASEZ), a liberalized, low-tax, duty-free, multi-sector economic development zone. ADC is a private shareholding company, launched by the government of Jordan and the Aqaba Special Economic Zone Authority (ASEZA), to transform the ASEZ into a world-leading hub for business and leisure. ADC's assets include the ports of Jordan, Aqaba's airport and strategic parcels of land covering most of the 375 km² Aqaba zone; as well as key utility and infrastructure development/management rights within the ASEZ.

The Aqaba Oil Terminal is one of Jordan's national infrastructure priorities, and the rehabilitation project is vital for the terminal to increase the handling capacity and will constitute a major element of the country's long-term economic growth, as it is part of its sole maritime gateway for energy security and a key component of ASEZ's emerging positioning as a leading, multi-modal, logistical, local and transit trade gateway for the Levant region on the Red Sea.

Project scope of work include : Rehabilitation of Terminal Piping System, Provide , Install and Test of Booster Pumps, Rehabilitation of existing Loading Arms , Provide , Install and Test a new set of Loading Arms , and Environmental requirements.

It is for seen to upgraded and enable the Oil Terminal to handle approximately 14 million tons of crude oil annually therefor the booster pumps and supply pipelines to and from the booster pumps station should be combatable with final upgraded pipelines network to transfer crude oil from the oil jetty to the buffer storage areas.

ADC hereby is inviting specialized International companies to participate in the tender for the Rehabilitation of the Aqaba Oil Terminal. The contract will be tendered as a Turn Key project under FIDIC/EPC contract conditions ('Silver Book').
